Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am a health practitioner. It has been my personal experience, as well as the reported results of the many others I work with, that the benefits of compounded prescriptions are numerous. These formulas have alleviated debilitating symptoms, such as depression, anxiety, joint pain, and sleeplessness, allowing for a continued quality of life.
